

ELECTRONIC BLOOD PRESSURE MONITOR

Wrist measurement, very convenient
US FDA Certification Passed 

One-button
switch

Heart Rate
Detection Function

Intelligent
Pressure

Comfortable
Wristband

High accuracy

Two-person
data memory

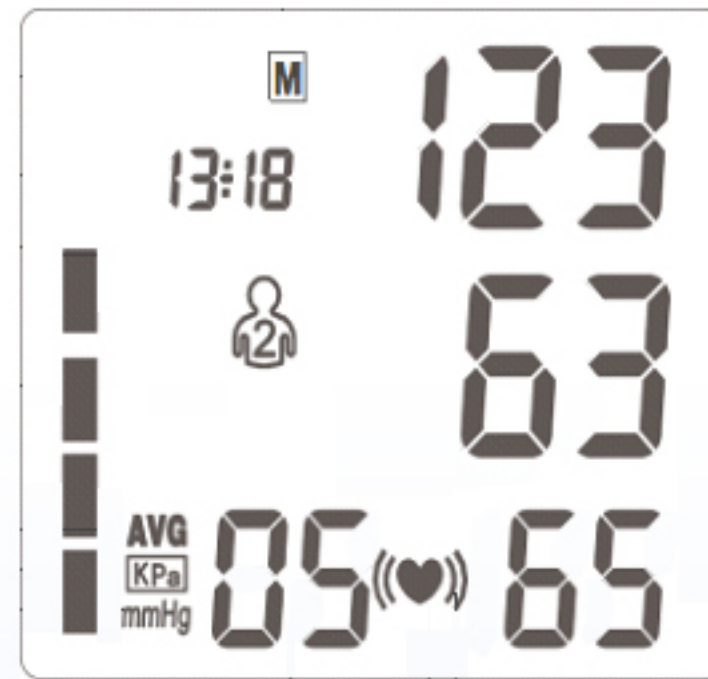

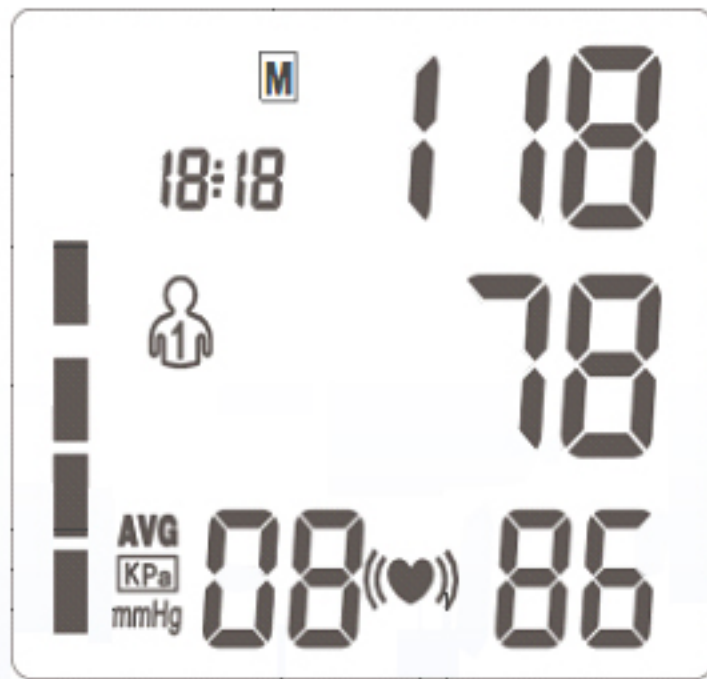

Exquisite Appearance Design

Exquisite appearance, black and white color generous and beautiful

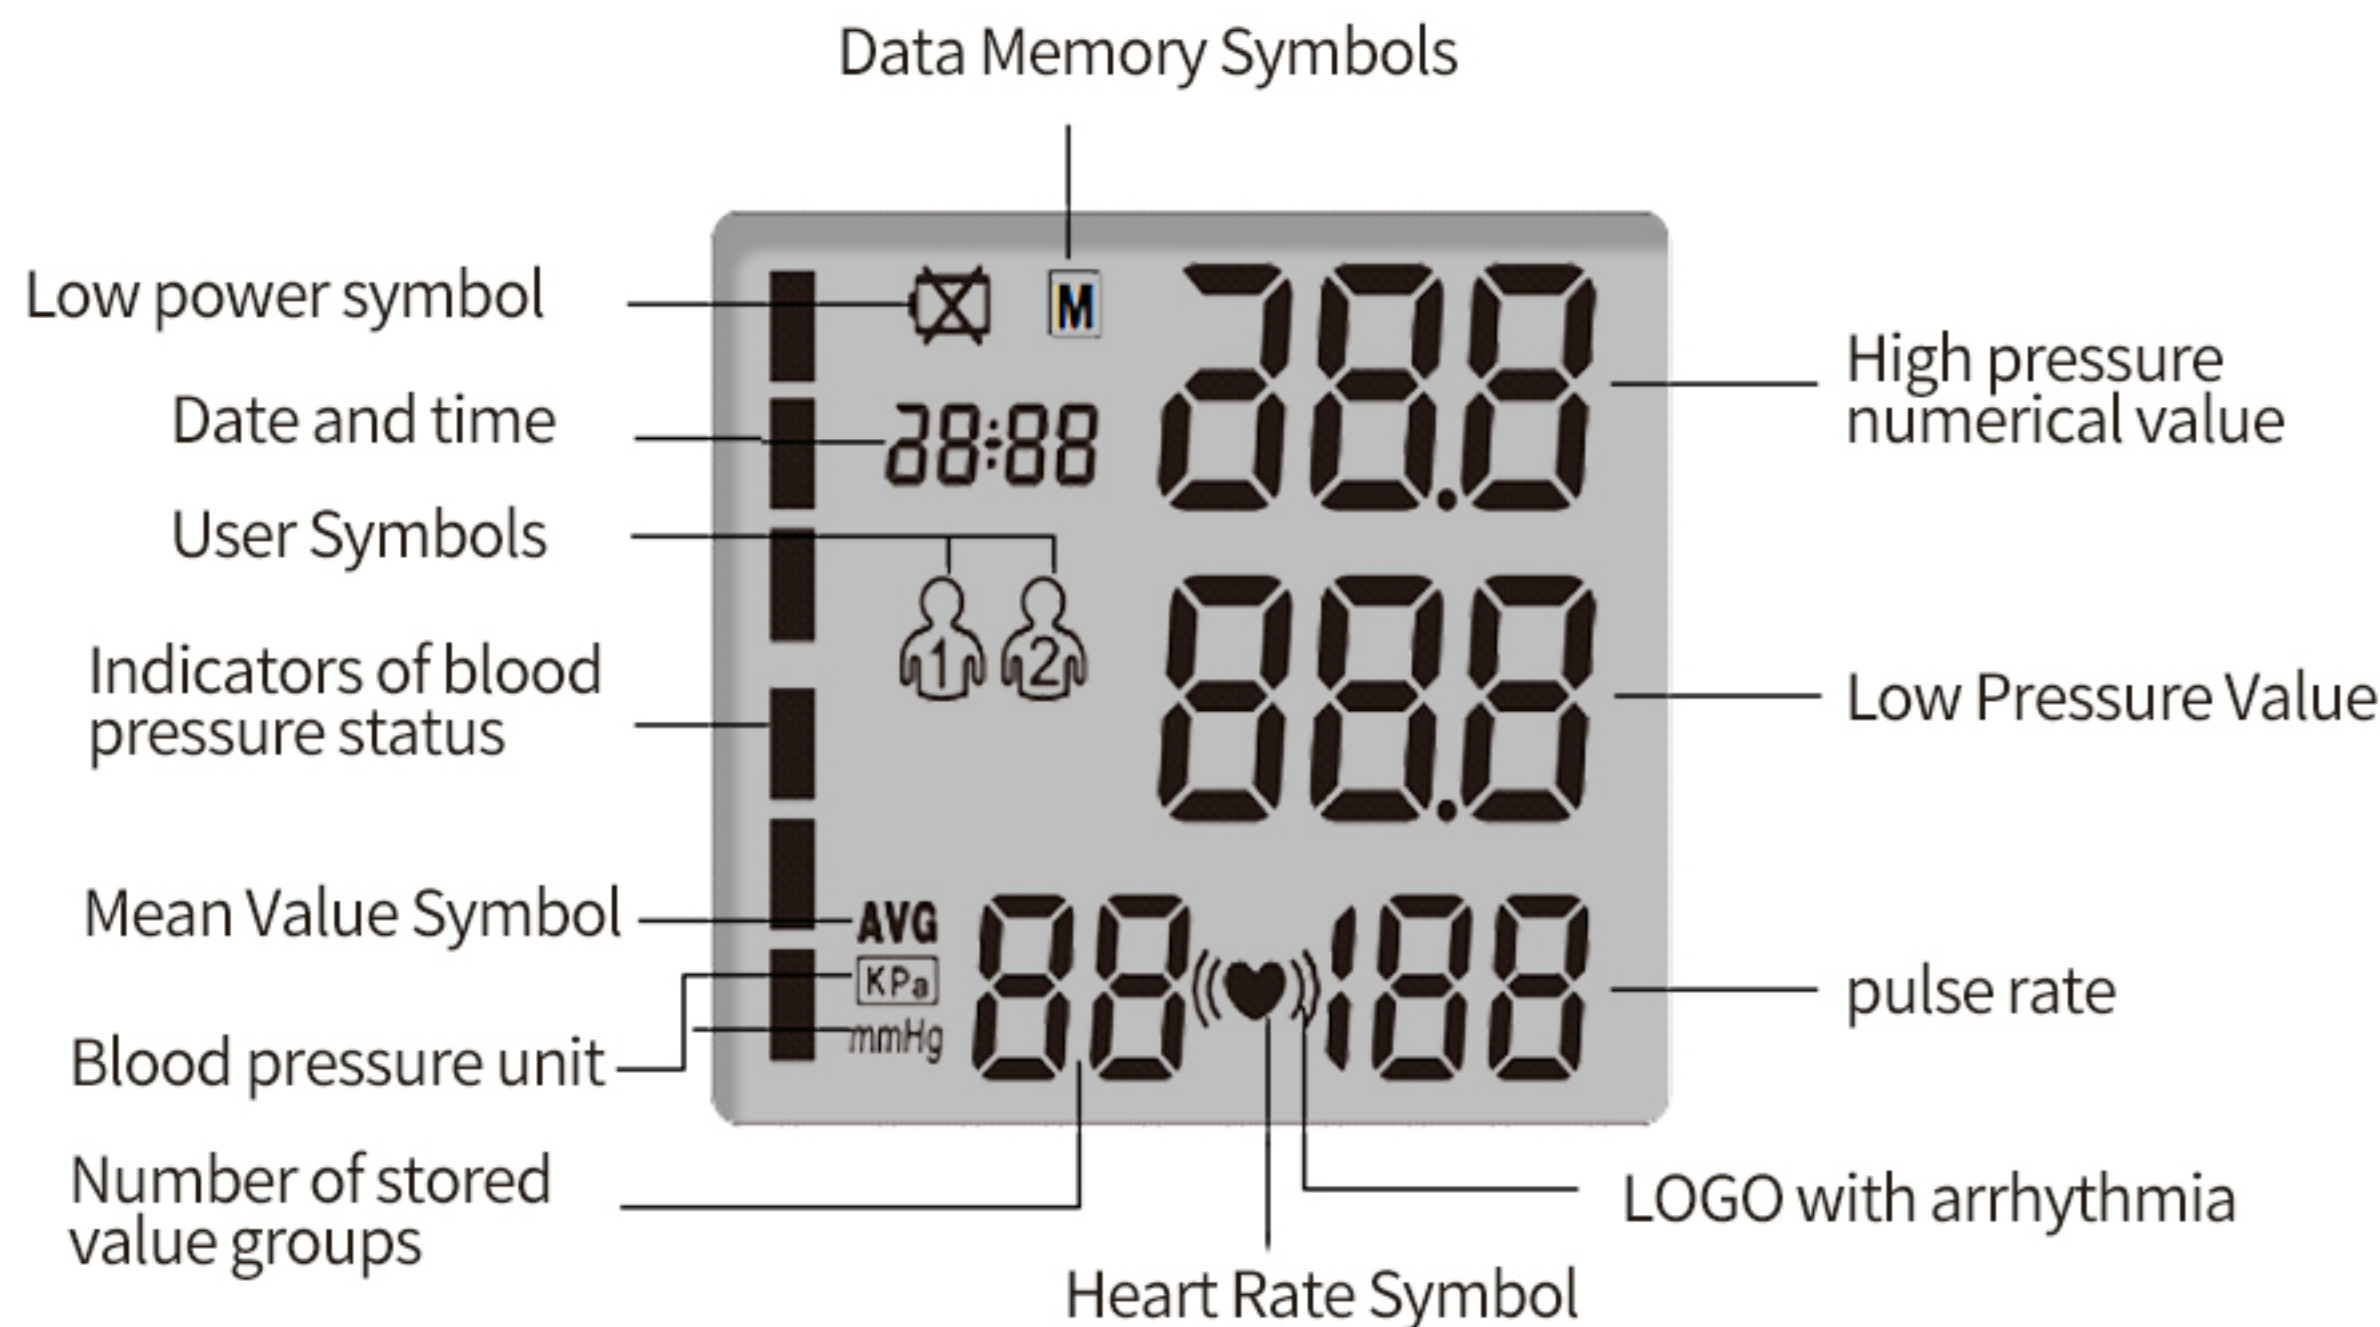

Data Storage for Two Persons

Two people each have 99 sets of data memory storage, separated and not confused

Screen Symbol Function Explanation

Detailed Interpretation of Symbols and Numbers of LCD Displays

Easy to open measurement with one button
Just one click to turn on the measurement immediately

Intelligent pressure Wristband

Intelligent pressure wristband, automatically adjust comfort according to wrist thickness

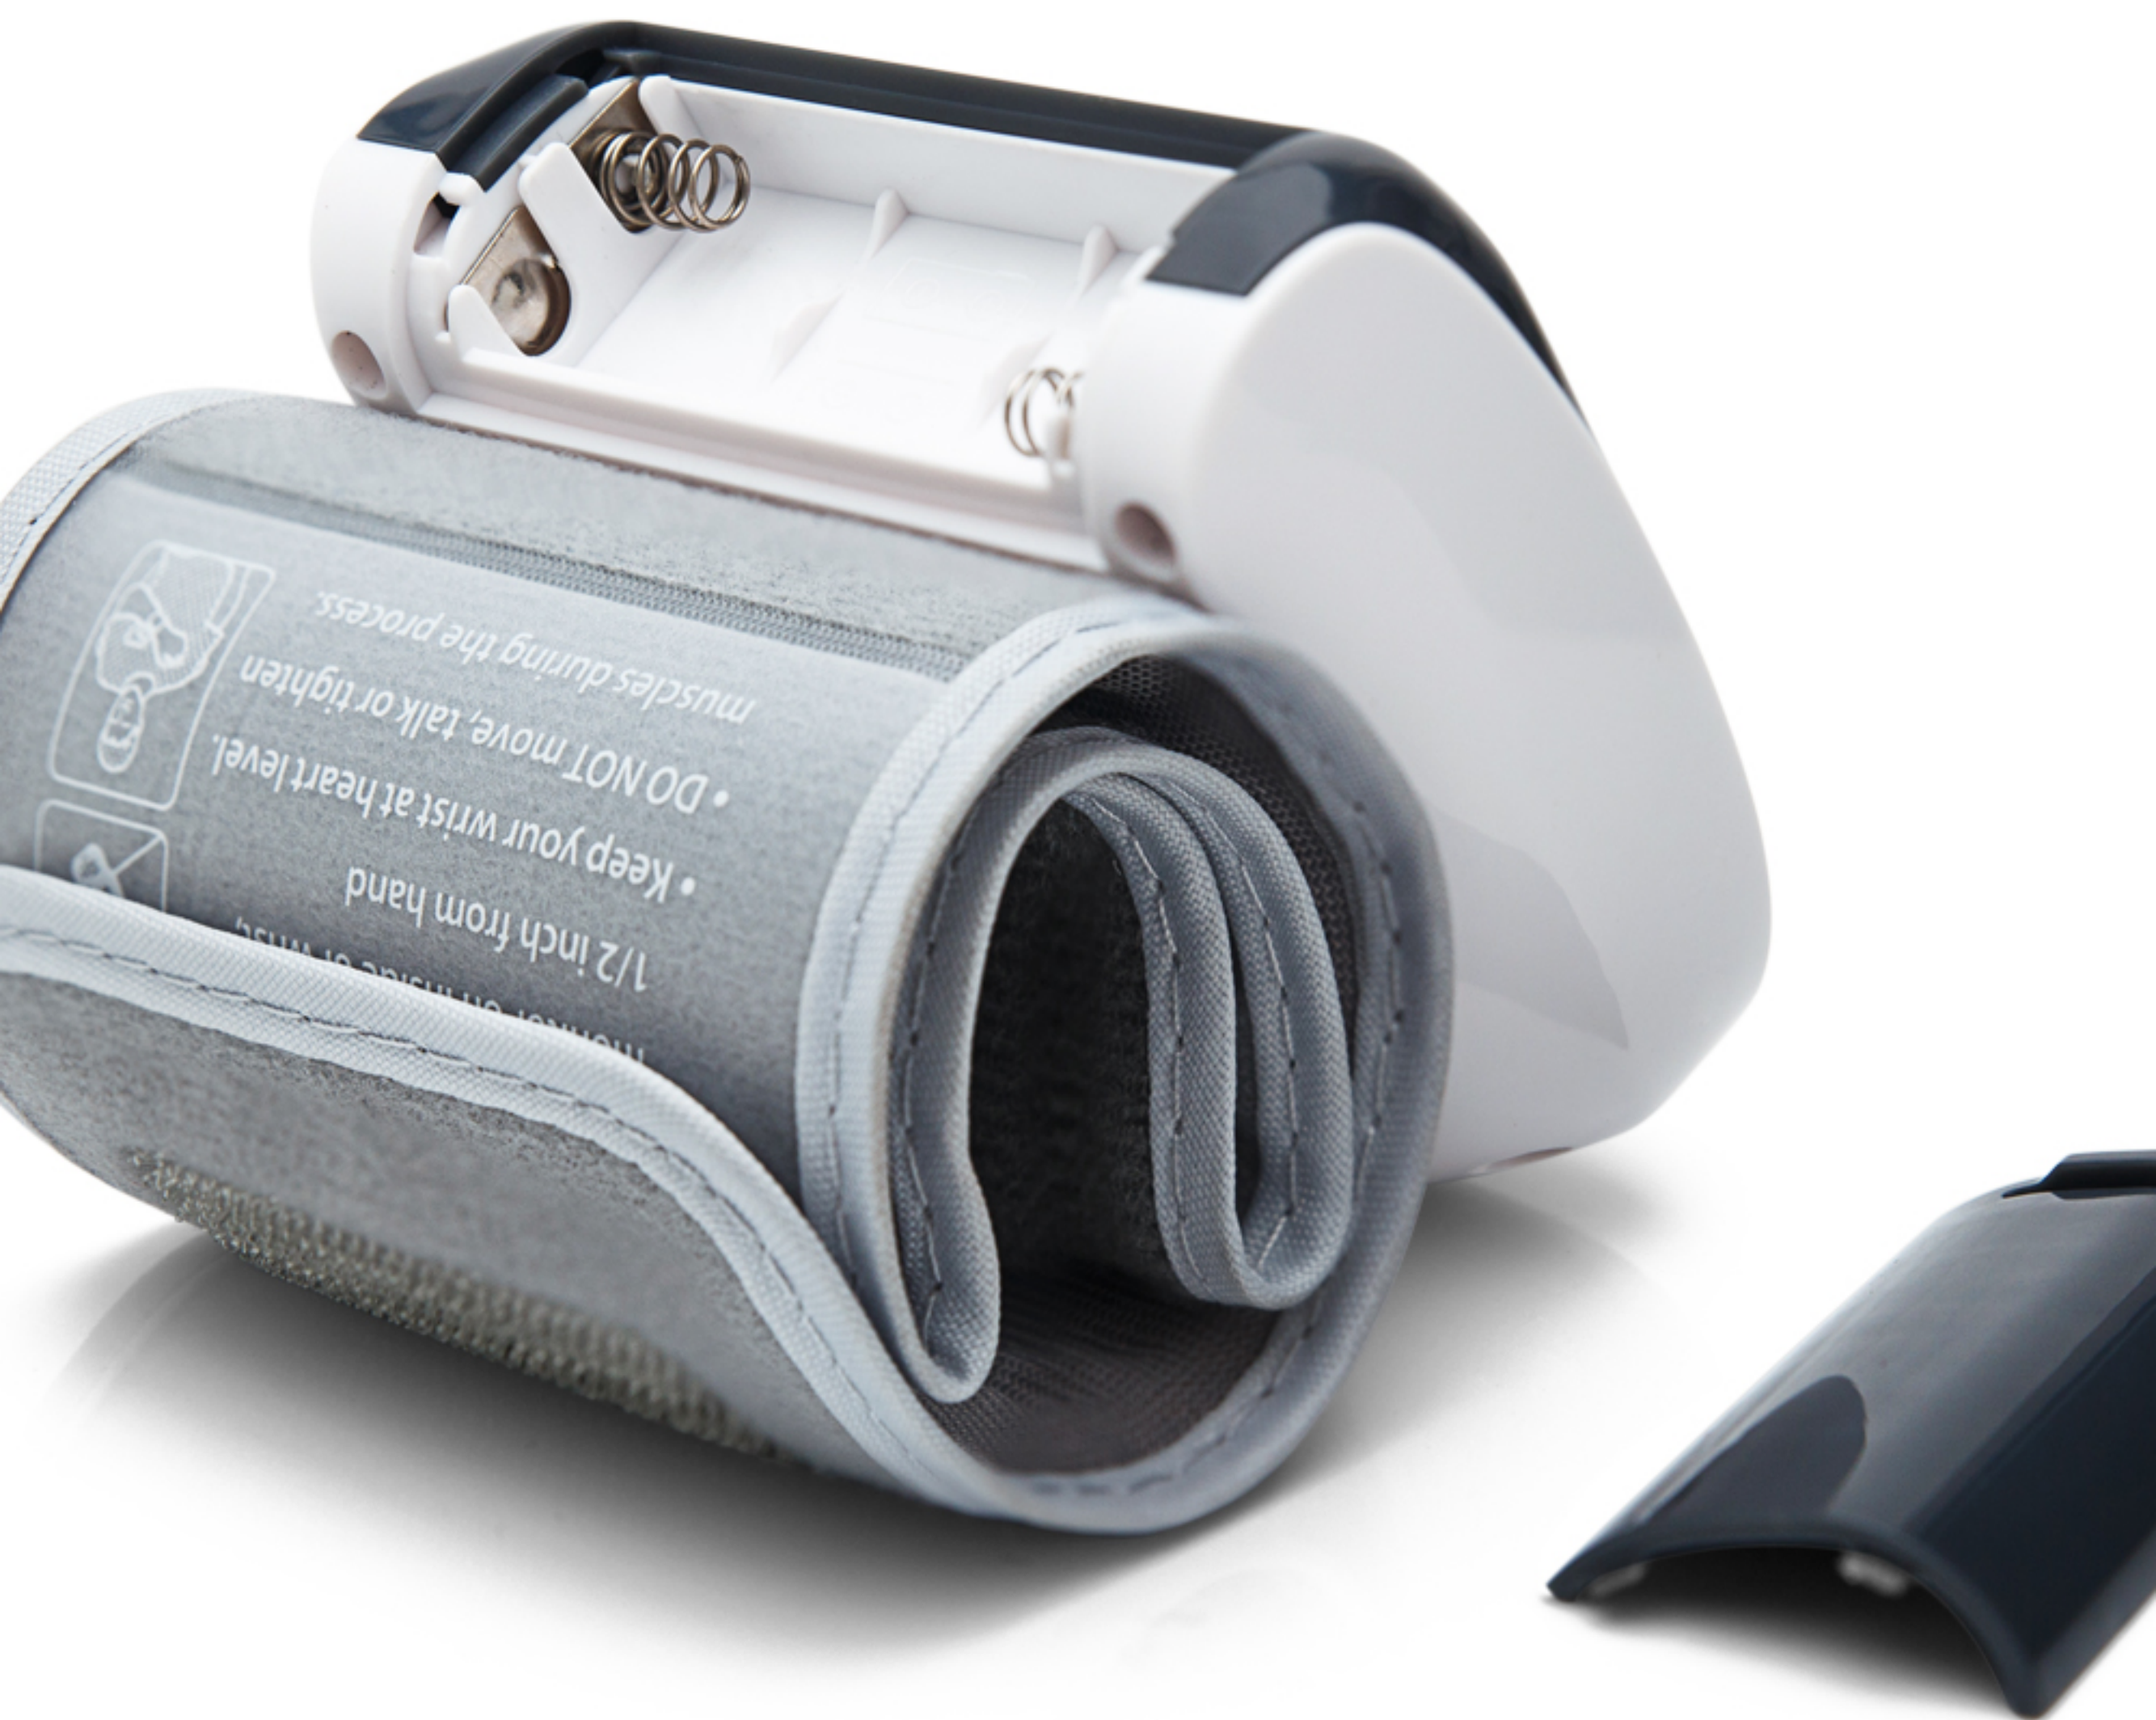

Classic black-and-white color matching

Using classical black and white color matching,
beautiful appearance design

Two AAA Batteries for Power Supply

With two AAA batteries, ultra-low power design, it can be used more than 100 times.

Cross-border Customized Small Packaging

Basic commodity parameters

Basic parameters and characteristics of products

Product characteristics:

Classic black and white color matching, LCD digital LCD screen.

Overvoltage protection function; Error prompt function.

Low power detection function; automatic shutdown function

Data storage: 99 groups for each person

The average of the last three measurements can be displayed.

Product Specification:

Measuring method: wrist type

Blood pressure measurement range: 20-280 mmHg

The accuracy of blood pressure measurement is within (+3 mmHg (+0.4 kpa)

Pulse measurement range: 40-199 times per minute

Pulse measurement accuracy: +5%
